

Custom Designer Plated Chrome  
**DRACULA FANGS™**

WITH NON-TOXIC **CUSTOM FORMULATED ALPHA ONE™ THERMOPLASTIC**  
 AND **CUSTOM DESIGNER PERFECT BITE FANGS™**

**Fig. A**

**PERFECT BITE™ METHOD:**

**Quick Overview-Instructions**

**You must also read complete instructions inside coffin box.)**

**Fig. B**

**Fig. C**

**Fig. D**

**Fig. E**

**Fig. F Fig. G**

1. Prepare hands with vegetable oil.
2. Melt Non-Toxic Custom Formulated Alpha One™ Thermoplastic in boiling water (Fig. A).
3. Roll thermoplastic into a daub (Fig. B).
4. Place daub into cavity of designer fang (Fig. C).
5. Push designer fang onto canine, forcing the thermoplastic to start to go out through the hole on the back of the fang, and knead excess thermoplastic past 1st and 2nd pre-molars, biting as you go, forming a partial plate. (Fig. D)

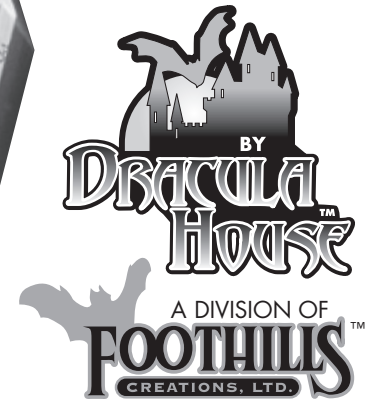

**WARNING:** You must remove partial plate within 5 minutes after forming the daub. This slightly enlarges the fitting before the thermoplastic sets. If you wait much longer, it may be extremely difficult to remove plate.

6. Smooth excess in front of fang up & over top of designer fang (Fig. E).
7. Remove partial plate (Fig. F), and trim excess off of top (Fig. G).
8. Trim excess thermoplastic off of inner sides of partial plate.

**Also see our Fitting Video in the Dracula House Theatre!**

**COFFIN JEWEL CHEST™:**  
 Great for placing your rings or jewelry on the slit velvet pad!

**MADE IN USA**

U.S. PATS. #5,547,381; D531,780; D551,825;
